

**MEDICAL CONSULTANCY
& CONSTRUCTION GROUP**

Company Profile

Confidentiality Notice:

All information contained herein (the “the Information”) is strictly confidential and proprietary to MCC London Ltd. (UK registered company number 06409388, herein the “Company”). Any recipient of the Information is prohibited from disclosing, granting access to, conveying, transmitting or transferring in any way whatsoever, the information or any part thereof to any third party whatsoever, without the prior consent of the Company, and shall keep the information in strict confidence at all times.

MCC Group, founded in 1990, is a Medical Consultancy and Construction group specializing in the Planning, Design and Execution of Turnkey and Tailormade projects.

MCC Group focuses on helping international organisations, governments, militaries and private organisations deal with a variety of situations, both natural and manmade.

This year has seen an unprecedented rise in the need for mobile healthcare solutions to meet the demand for Coronavirus testing, treatment and eventually, vaccination facilities.

Global Support

MCC has executed hospital projects in over 15 countries around the world.

Planning and Design

Stationary Hospitals – World Class State-of-the-Art Hospital Design

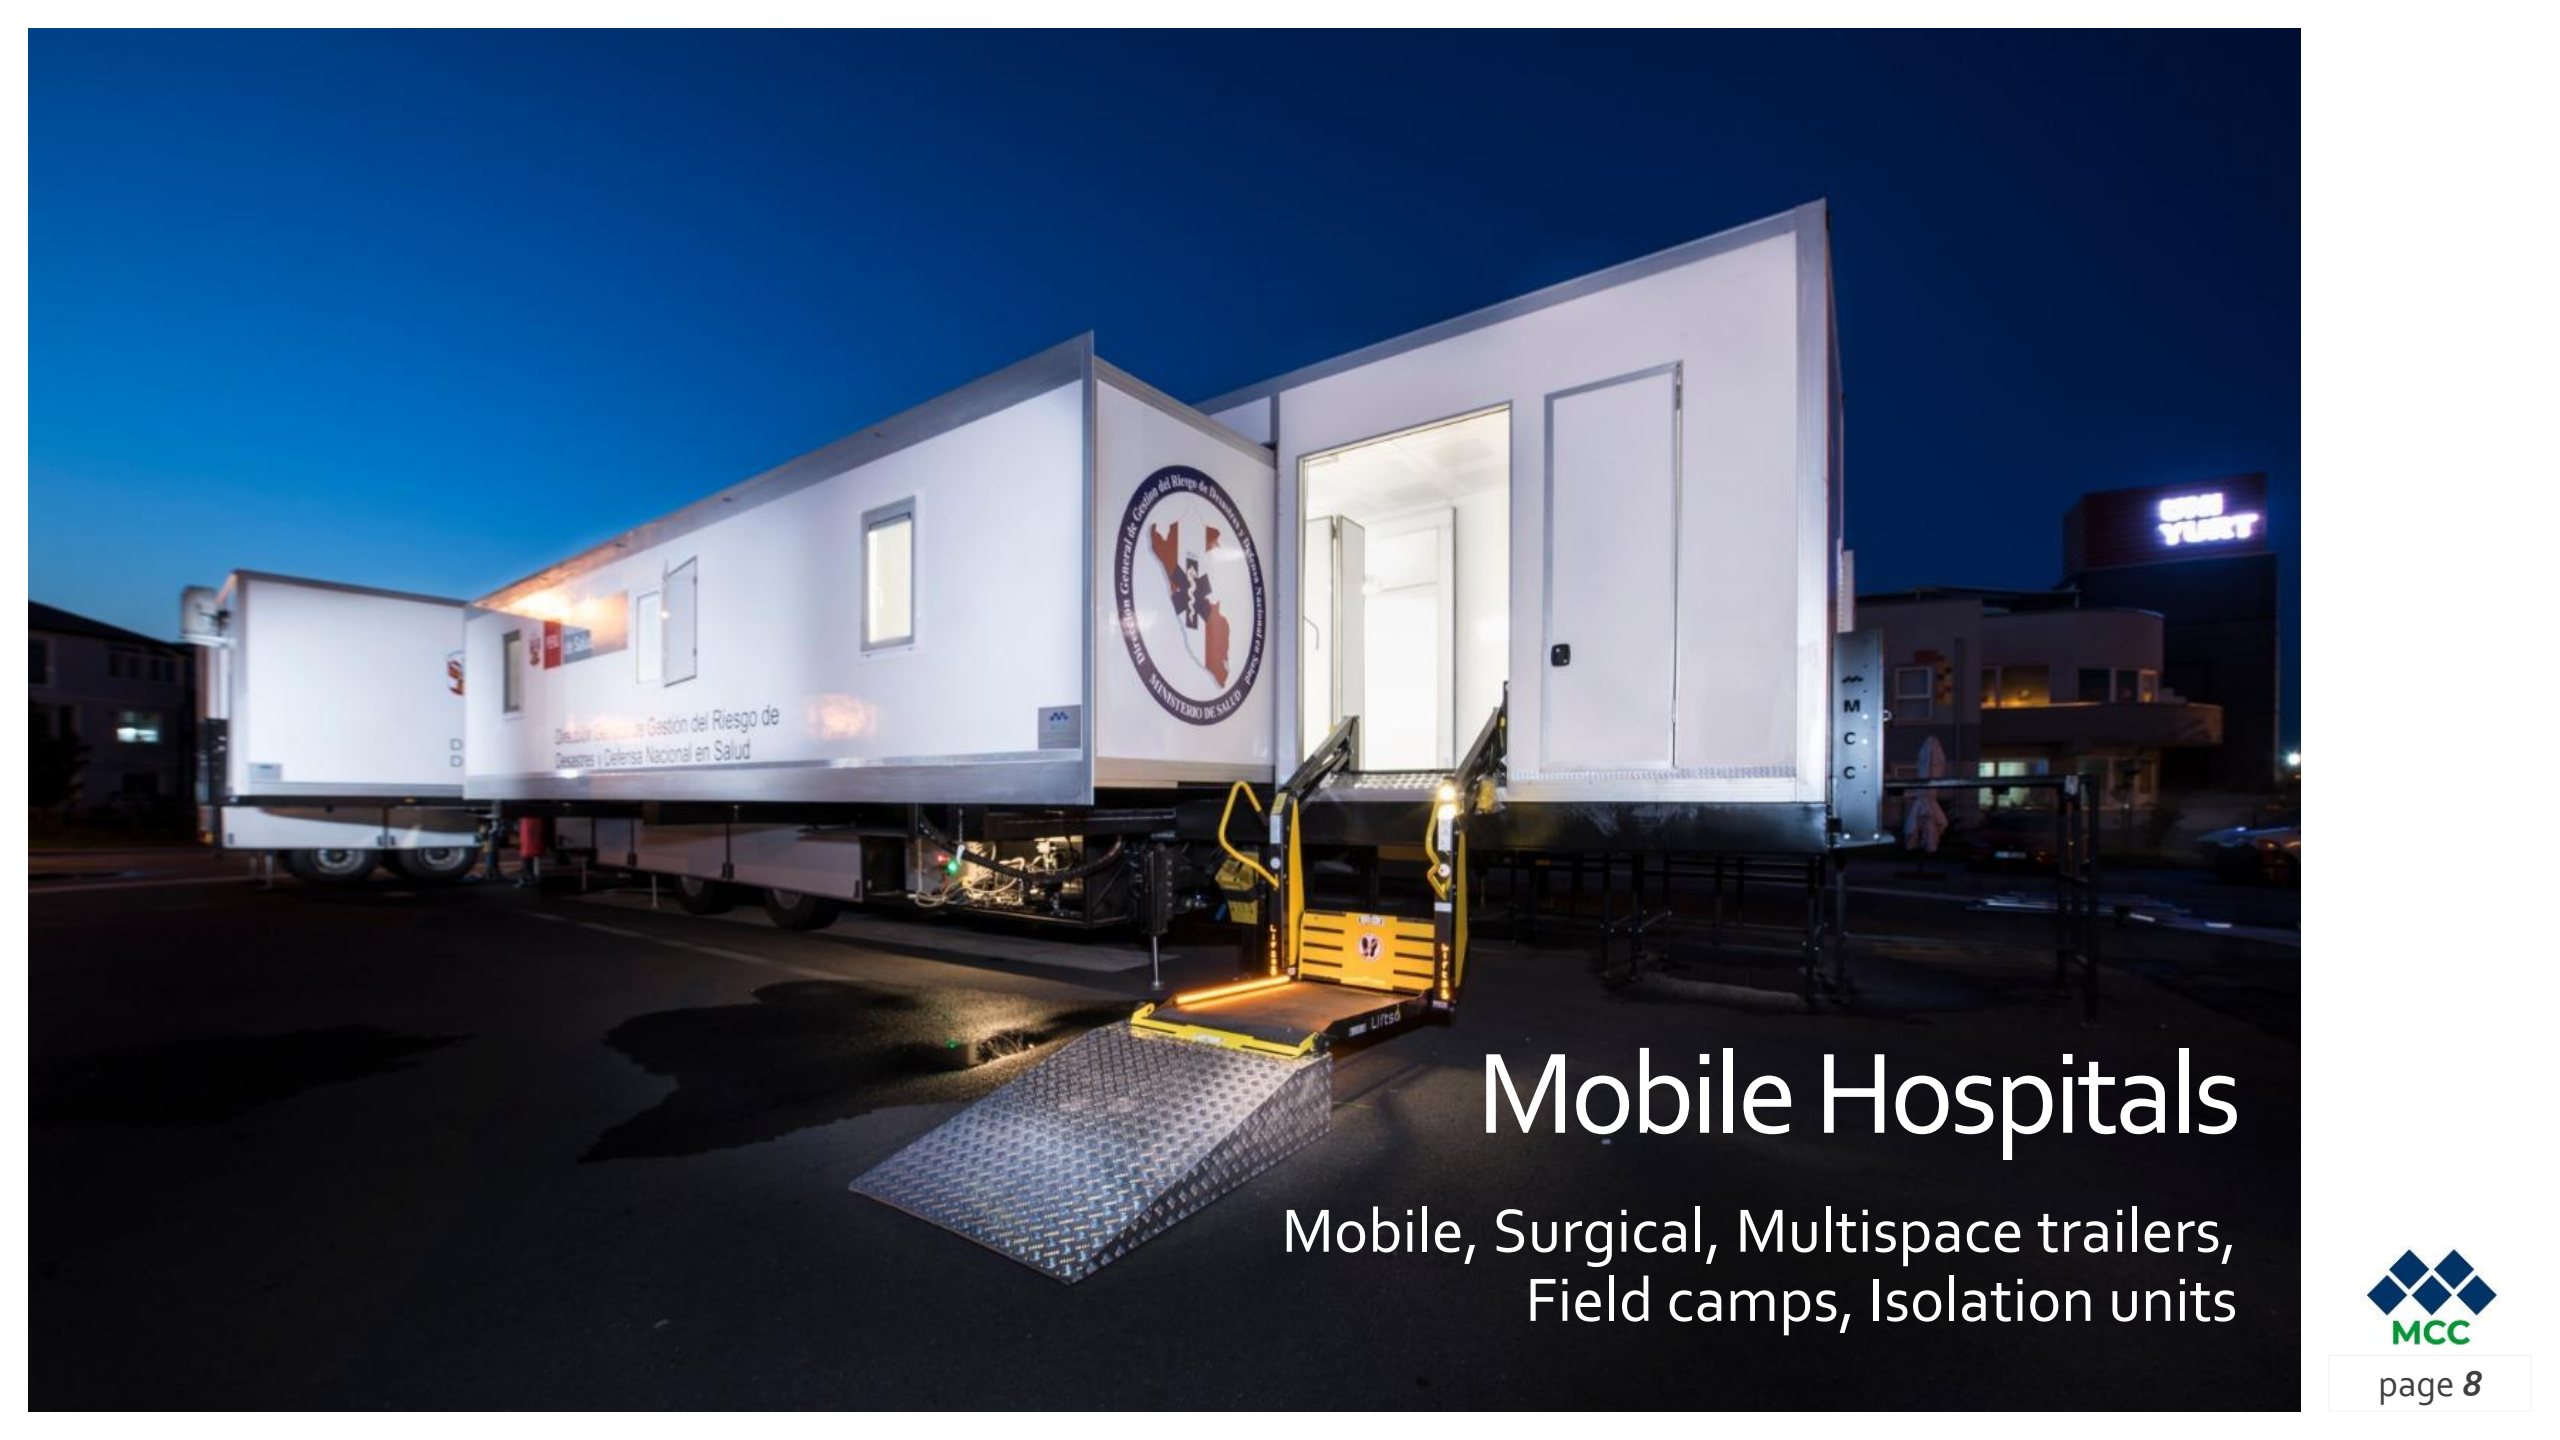

Operating Theatres

Ready for Use
Operating Theatres
Pre-operative Rooms
Corridor area with scrubs
Post-operative Rooms

Operating theatres

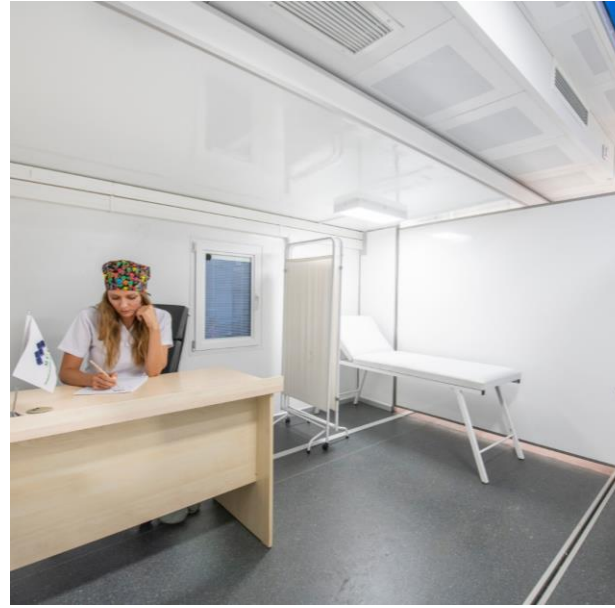

Mobile Hospitals

Mobile, Surgical, Multispace trailers,
Field camps, Isolation units

Modular and Mobile Hospitals - Mobile Ambulatory Clinic Unit

- Stationary Hospitals & Clinics
- Modular Steel Structure and Mobile Hospitals
- Mobile Hospitals and Medical Units
- Operating Theatres
- Medical Equipment
- Hospital Management and Training
- Maternity wards
- Intensive Care / Triage / Post and Pre-Operative / Emergency
- Diagnostic centres
- Medical laboratories
- Surgical area & Operating Theatres
- Dialysis Units

The Mobile hospital is comprised of 4 modules:

- 1 large module with OT/ICU with HEPA filters, Gynaecology, Paediatrics
- 1 large module with 3 General Consulting rooms and reception area
- 1 regular module with 3 toilets & showers, sanitary area and generator
- 1 regular module laboratory, technical room and waiting area

Flexible connections link the modules, thereby forming the 'hospital'. The Mobile hospital comes in two models:

- Trailer Based Hospital
- ISO sized containerised Hospital

There are three entrances to the hospital:

- Stairs
- Ramp
- Lift

Modular and Mobile Hospitals – Case Study - Peru

MCC has provided 10 Multi-space Hospitals that are being used as COVID-19 Hospitals in Peru

Modular and Mobile Hospitals – Case Study - Peru

The first hospital is deployed to Lima airport

The deployment of one of the ten Hospitals within Lima's Airport to face the problem of incoming passengers and testing against COVID – 19 was an important part of the anti-virus campaign.

Subsequent units were deployed at stadiums and in other locations of greatest need throughout Peru. Watch the latest video -

<https://www.youtube.com/watch?v=dACcLHLYaQs&t=13s>

On the front line against Corona

- The project was the biggest weapon to fight the COVID-19 in Peru.
- MCC teams are deploying the 10 mobile hospitals are being moved around all the geography of Peru on a weekly basis.
- Peru was the first country in the region that installed a mobile hospital in the International airport to create a filter in the entrance to the country.

PRESS NOTES

A 3D architectural rendering of a large modular hospital complex. The facility is composed of numerous white, rectangular modular units arranged in a grid-like pattern. Each unit features a blue roof and a circular logo with a red, white, and blue design. The units are interconnected by a network of walkways and ramps. The complex is situated on a dark, paved area, with a grassy field visible in the background. The overall design is modern and functional, emphasizing the scalability and modularity of the hospital structure.

100 Bed MCC Modular Hospital

Render

Selected List of Stationary Hospitals

Type	Project Name \ Client	SOW	Size
Modular Hospital	Essalud, Marcona, Peru	Planning, Design and Manufacturing of 19 bed modular hospital for Essalud in Marcona, Peru. 4 Observation beds. 2 Isolation. 2 Recovery. 11 inpatient.	19 bed hospital, 1695 sqm. Modular
